

The Middleby Corporation Reports First Quarter Results

May 9, 2018

ELGIN, Ill.--(BUSINESS WIRE)--May 9, 2018-- The Middleby Corporation (NASDAQ: MIDD), a leading worldwide manufacturer of equipment for the commercial foodservice, food processing, and residential kitchen industries, today reported net sales and earnings for the first quarter ended March 31, 2018. Net earnings for the first quarter were \$65,420,000 or \$1.18 diluted earnings per share on net sales of \$584,800,000 as compared to the prior year first quarter net earnings of \$70,702,000 or \$1.24 diluted earnings per share on net sales of \$530,297,000.

2018 First Quarter Financial Highlights

- Net sales increased 10.3% in the first quarter over the comparative prior year period. Sales related to recent acquisitions added \$63.9 million or 12.0%, in the first quarter. The impact of foreign exchange rates on foreign sales translated into U.S. Dollars increased net sales by approximately 2.8% during the first quarter. The adoption of ASC 606 increased net sales by approximately 2.7% during the first quarter. Excluding the impact of acquisitions, foreign exchange and the adoption of ASC 606, sales decreased 7.2% during the first quarter.
- Net sales at the company's Commercial Foodservice Equipment Group increased \$47.7 million, or 15.3%, to \$359.9 million in the first quarter as compared to \$312.2 million in the prior year first quarter. During fiscal 2017, the company completed the acquisitions of Sveba Dahlen, QualServ, L2F and Globe. Excluding the impact of these acquisitions, sales increased 0.5% in the first quarter, or decreased 1.4% excluding the benefit of foreign exchange.
- Net sales at the company's Residential Kitchen Equipment Group decreased \$4.5 million, or 3.2%, to \$136.3 million in the first quarter as compared to \$140.8 million in the prior year first quarter. Excluding the impact of foreign exchange, sales decreased 8.4% during the first quarter. Sales at Viking increased by approximately 5% during the quarter. This increase was more than offset by the temporary impact of consolidating our premium brands through company owned distribution and canceling certain third party distributors, in addition to lower sales at AGA.
- Net sales at the company's Food Processing Equipment Group increased \$11.3 million, or 14.6%, to \$88.6 million in the first quarter as compared to \$77.3 million in the prior year first quarter. During fiscal 2017, the company completed the acquisitions of Burford, CVP Systems, and Scanico. During fiscal year 2018, the company completed the acquisition of Hinds-Bock. Excluding the impact of these acquisitions, sales decreased 8.5% in the first quarter. Excluding the impact of acquisitions, foreign exchange and the adoption of ASC 606, net sales decreased 28.7%
- Gross profit in the first quarter increased to \$211.6 million from \$209.5 million reflecting the impact of increased sales from acquisitions. The gross margin rate decreased from 39.5% to 36.2%. The decrease in the gross margin rate for the quarter reflects lower margins at recent acquisitions. Additionally, the gross margin rate was impacted by lower volumes and unfavorable mix at the Food Processing Equipment Group.
- Operating income amounted to \$87.0 million in the first quarter as compared to \$92.7 million in the prior year quarter.
- Operating income included \$19.8 million of non-cash expenses during the first quarter, including \$8.2 million of depreciation expense, \$11.5 million of intangible amortization and \$0.1 million of share based compensation.
- The provision for income taxes in the first quarter amounted to \$21.3 million at a 24.5% effective rate in comparison to \$22.7 million at a 24.3% effective rate in the prior year quarter. The tax rate in first quarter was favorably impacted by the reduction in the federal tax rate from 35% to 21% due to the enactment of the Tax Cuts and Job Act of 2017. The tax rate in the prior period was favorably impacted by a tax benefit from the adoption of ASU No. 2016-09, "Compensation - Stock Compensation (Topic 718)", which resulted in the recognition of excess tax benefits from share-based payments to be recognized as an income tax benefit in the condensed consolidated statement of earnings.
- Net earnings per share amounted to \$1.18 in the first quarter as compared to \$1.24 in the prior year quarter. Net earnings in the current and prior year first quarter were reduced by restructuring expenses. The impact of these items reduced earnings per share by \$0.02 in the 2017 and 2016 first quarter periods.
- Operating cash flows amounted to \$44.7 million during the first quarter as compared to \$46.9 million in the prior year quarter.
- Net debt, defined as debt less cash, at the end of 2018 fiscal first quarter amounted to \$945.7 million as compared to \$939.2 million at the end of fiscal 2017.

Selim A. Bassoul, Chairman and Chief Executive Officer, commented, "At the Commercial Foodservice Equipment Group, sales were impacted by the strategic changes in our sales organization implemented in the second half of 2017 and completed in the first quarter of 2018. This effort has allowed us to align with the strongest sales representatives in the industry, which now carry

our complete portfolio of leading brands and product innovations. Although this initiative has been disruptive in the short term, it has resulted in a stronger, more aligned selling organization and greatly simplified the sales process for our customers. We remain very excited about the pipeline of new innovative products introduced over the past several years. During the first quarter we have seen the adoption of several new products at both new and existing customers, and realized orders for several opportunities that will convert into sales in upcoming quarters. As a result, we anticipate improving sales trends as we progress throughout the year. We have continued to further develop our pipeline of product innovations with a heavy focus on automation and labor savings innovations. Through the 2017 acquisition of L2F, a leader in robotics and automated solutions, we have added a unique capability and are developing integrated solutions to address labor, safety and efficiency issues at our restaurant customers.”

Mr. Bassoul continued, “At our Residential Kitchen Equipment Group, we were very pleased to report 5% sales growth at the Viking brand in the first quarter. Incoming orders outpaced first quarter sales at a double digit growth rate and we anticipate consistent growth throughout the remainder of 2018. We believe the substantial investments made over the past several years in new products, quality, service and sales have repositioned Viking for long-term profitable growth. During the quarter we remained committed to heavily invest in new product displays at our dealer partners and are excited about the continued positive response in the marketplace. During the quarter, we also maintained our focus to execute on our long-term strategy of consolidating our premium brands including Marvel, Lynx, LaCornue and AGA through our company owned sales and distribution organization. Through this initiative we will be able to leverage our portfolio of premium residential brands and offer unique sales and service programs to our customers. This will also provide for greater profitability as we leverage investments made in our company owned distribution model. This strategic change adversely impacted sales and profitability during the quarter as our cancelled distributors destocked inventory. We anticipate the transitional impact of the distribution changes will be completed by end of the second quarter. The AGA businesses also adversely impacted sales due to sluggish market conditions in the UK and continual decline in revenues at non-core businesses as we restructure operations to focus on profit improvements at those entities.”

“At the Food Processing Equipment Group, we have had several anticipated orders not materialize. The decline in revenues reflects the significance of large projects on this business segment, which has historically resulted in quarterly sales volatility. We anticipate revenues will be impacted for the upcoming quarters due to the delay in a number of larger projects.”

“We are pleased to announce the acquisition and addition of several new brands to the portfolio early in 2018. These new additions include Firex, a leader in steam cooking equipment, Jospier, a leader in charcoal cooking equipment, and JoeTap, a leader in nitro-brew and cold-brew coffee dispensing equipment. The addition of Firex and Jospier further extend our portfolio of leading cooking brands and product innovation in commercial foodservice industry. In both cases, these companies are well positioned to benefit from growing foodservice trends related to steam, sous-vide, and charcoal cooking. JoeTap further adds to our beverage and coffee platform. Cold-brew and nitro-brew are quickly gaining momentum and we have seen significant interest in these products from our existing customers.”

Conference Call

A conference call will be held at 10 a.m. Central Time on Wednesday, May 9 and can be accessed by dialing (888) 391-6937 or (315) 625-3077 and providing conference code 1892863#. The conference call is also accessible through the Investor Relations section of the company website at www.middleby.com. A replay of the conference call will be available two hours after the conclusion of the call by dialing (855) 859-2056 and entering conference code 1892863#.
