**2007 ANNUAL MEETING OF STOCKHOLDERS
May 3, 2007
PROXY STATEMENT**

GENERAL

This Proxy Statement and the accompanying proxy are furnished to stockholders of The Middleby Corporation (the "Company") in connection with the solicitation of proxies by the Company's Board of Directors (the "Board") for use at the 2007 Annual Meeting of Stockholders (the "Meeting") to be held at the Company's executive offices located at 1400 Toastmaster Drive, Elgin, Illinois 60120, at 10:30 a.m., local time, on Thursday, May 3, 2007, for the purposes set forth in the accompanying Notice of Meeting. This Proxy Statement, the form of proxy included herewith, and the Company's Annual Report to Stockholders for the fiscal year ended December 30, 2006, are being mailed to stockholders on or about April 3, 2007.

Stockholders of record at the close of business on March 22, 2007 (the "Record Date") are entitled to notice of and to vote at the Meeting. On such date there were outstanding 7,975,623 shares of common stock, par value \$0.01 per share, of the Company ("Common Stock"). In deciding all questions, each holder of Common Stock will be entitled to one vote, in person or by proxy, for each share held on the Record Date.

Stockholders who are entitled to vote at the Meeting may vote by proxy pursuant to the following methods: (i) stockholders who own shares in their own name may vote in person at the Meeting by bringing valid photo identification and delivering your proxy card at the Meeting, or by mail, telephone or electronically via the Internet, pursuant to the instructions on the proxy card enclosed with this Proxy Statement or (ii) stockholders who own shares through a bank, broker or other nominee should follow the instructions provided by such nominee.

The election inspectors appointed for the Meeting will determine the presence of a quorum and tabulate the votes cast by proxy or in person at the Meeting. The presence, in person or represented by proxy, of the holders of a majority of the shares of Common Stock outstanding and entitled to vote at the Meeting is necessary to constitute a quorum. A quorum is necessary for the transaction of business at the Meeting. Abstentions and broker non-votes will be included in determining the presence or absence of a quorum. Generally, broker non-votes occur on a proposal when a broker indicates on the proxy that it does not have discretionary authority as to certain shares to vote on a particular matter or when a broker has such discretionary authority but does not exercise such discretion.

The eight nominees for election to the Board who receive the greatest number of votes cast for the election of directors by the shares present, in person or represented by proxy, will be elected to the Board. For the election of directors, abstentions and broker non-votes will have the effect of neither a vote FOR nor a vote AGAINST the nominee and thus will have no effect on the outcome. Approval of the proposal to ratify the Company's appointment of independent public accountants and the proposal to adopt the Company's 2007 Stock Incentive Plan requires the vote of a majority of the

votes cast at the Meeting by holders of shares present in person or represented by proxy and entitled to vote at the Meeting. For these other matters, abstentions and broker non-votes will not be counted as votes cast either FOR or AGAINST approval of such matters and therefore will not have an effect on the outcome of the votes.

Approval of the proposal to amend the Company's restated certificate of incorporation requires the affirmative vote of a majority of the Company's outstanding shares of Common Stock. Both abstentions and broker non-votes are not affirmative votes and, therefore, will have the same effect as votes cast against this proposal.

Properly executed proxies will be voted in the manner directed by the stockholders. If no direction is made, such proxies will be voted as follows:

- "Proposal No. 1—Election of Directors"; FOR the election of each of the named nominees as a director of the Company;
- "Proposal No. 2—Ratification of Selection of Independent Public Accountants"; FOR the ratification of the selection of Deloitte & Touche LLP as the Company's independent public accountants for the current fiscal year ending December 29, 2007;
- "Proposal No. 3—Approval of an amendment to the Restated Certificate of Incorporation"; FOR the approval of the amendment to the restated Certificate of Incorporation;
- "Proposal No. 4—Approval of 2007 Stock Incentive Plan"; FOR the approval of the 2007 Stock Incentive Plan .

Any proxy may be revoked by the stockholder at any time prior to the voting thereof by notice in writing to the Secretary of the Company, either prior to the Meeting (at the above Elgin address) or at the Meeting if the stockholder attends in person or a later dated proxy will revoke a prior dated proxy. As of the date of this Proxy Statement, the Board of Directors knows of no other business which will be presented for consideration at the Meeting. If other proper matters are presented at the Meeting, however, it is the intention of the proxy holders named in the enclosed form of proxy to take such actions as shall be in accordance with their best judgment.

PROPOSAL NO. 1—ELECTION OF DIRECTORS

Each of the nominees has consented to serve as a director if elected. The Board of Directors knows of no reason why any of the foregoing nominees will be unavailable to serve, but, in the event of any such unavailability, the proxies received will be voted for such substitute nominees as the Board of Directors may recommend.

Vote Required for Approval; Board Recommendation

Nominees for election to the Board of Directors who receive the greatest number of votes cast for the election of directors by the shares present, in person or represented by proxy, will be elected to the Board of Directors. With regard to the election of directors, votes may be cast FOR or withheld AGAINST each nominee. Votes that are withheld will have no effect on the outcome of the election because directors will be elected by a plurality of the votes cast. Stockholders eligible to vote at the Meeting do not have cumulative voting rights with respect to the election of directors.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE “FOR” EACH OF THE ABOVE NAMED NOMINEES AS A DIRECTOR OF THE COMPANY.

Committees; Board Meetings

The Board of Directors of the Company held four meetings during the fiscal year ended December 30, 2006, and each director attended at least 75% of all Board and applicable Committee meetings. Although the Company does not have a formal attendance policy, the Company encourages all directors to attend the annual meetings of stockholders. All of the Company’s directors at the time attended the 2006 Annual Meeting of Stockholders. Current directors, Messrs. Putnam, Streeter, Yohe, Miller, O’Brien, Lamb, and Levenson, have been determined by the Board of Directors to be “independent directors” as such term is defined under Rule 4200(a)(15) The Nasdaq Stock Market, Inc. (“Nasdaq”). The Board is comprised of a majority of independent directors. The Company currently has an Audit Committee and a Compensation Committee.

From January 1, 2006 to July 25, 2006, the Audit Committee was comprised of Messrs. Putnam (Chairman), Streeter, and Lamb. From July 26, 2006 to December 30, 2006, the Audit Committee was comprised of Messrs. Putnam (Chairman), Streeter, Lamb, and Levenson. During the fiscal year ended December 30, 2006, the Audit Committee met four times for the purposes of (i) approving the selection of the Company’s independent auditors; (ii) reviewing the arrangements for and scope of the audit and pre-approving permitted non-audit services; (iii) reviewing the Company’s interim and annual financial statements or other results of the audit; (iv) reviewing the Company’s internal accounting procedures and controls and the recommendations of the Company’s independent auditors; and (v) reviewing the external audit process. All of the members of the Audit Committee have

been determined by the Board of Directors to be financially sophisticated as required by Nasdaq Rule 4350(d) and to be “audit committee financial experts” as such term is defined in Item 407(d)(5) of Regulation S-K promulgated by the SEC. All of the members of the Audit Committee have been determined by the Board of Directors to meet the additional independence criteria set forth in Nasdaq Rule 4350(d). The Audit Committee has a charter which was approved by the Board of Directors on March 4, 2003 and modified as of February 25, 2004, a copy of which is attached as Appendix A to this proxy statement for the 2007 Annual Meeting of Stockholders of the Company.

From January 1, 2006 to July 25, 2006, the Compensation Committee was comprised of Messrs. Yohe (Chairman), Miller, and O’Brien. From July 26, 2006 to December 30, 2006, the Compensation Committee was comprised of Messrs. Yohe (Chairman), Miller, O’Brien, and Levenson. During the fiscal year ended December 30, 2006, the Compensation Committee met three times. The function of the Compensation Committee is to make recommendations concerning the compensation of the Chairman of the Board, the President and Chief Executive Officer, and other executive officers of the Company. The Compensation Committee is also responsible for making grants to executive officers under the 1998 Stock Incentive Plan and the proposed 2007 Stock Incentive Plan, and for administering the Management Incentive Compensation Plan, the Executive Officer Incentive Plan, and the proposed 2007 Stock Incentive Plan. All of the members of the Compensation Committee have been determined by the Board of Directors to be independent as defined under applicable Nasdaq listing standards. The Compensation Committee does not have a written charter.

The Board does not have a standing nominating committee or a nominating committee charter that addresses the nominations process. In fiscal year 2005, the Board considered a recommendation from management of the Company that the Board establish a nominating committee comprised solely of non-employee directors, adopt a nominating committee charter and establish a formal policy for consideration of director candidates submitted by the Company’s stockholders. After reviewing management’s recommendation, the Board determined that it was not necessary to have a separate nominating committee or a formal policy for consideration of director candidates submitted by the Company’s stockholders at that time. See “Requirements and Procedures for Submission of Stockholder Nominations of Director Candidates and Proposals of Security Holders” for further information regarding the procedures for recommending a director nominee for consideration. The Board believes that it can adequately fulfill the functions of a nominating committee without having to appoint an additional committee to perform that function based upon the limited size of the Board and the current and anticipated operations and needs of the Company.

A majority of the independent directors discuss and evaluate potential director candidates and recommends potential director candidates to the full Board for selection. The full Board then considers the potential director candidates who have been recommended by a majority of the independent directors. Because the Company’s stockholders rarely, if ever, have recommended potential director candidates, the Board does not have a formal policy for consideration of potential director candidates recommended by the Company’s stockholders, but the Board will give due consideration to any and all such candidates under the same criteria as internally generated candidates. In selecting director candidates, the Board considers a variety of factors, including but not limited to, a candidate’s demonstrated good character and integrity, experience at strategy/policy setting levels, high level experience in dealing with business organizations, ability and willingness to devote time to the affairs of the Company, financial, technical or other special skills and experience, business contacts and ability to work effectively with other Board members.

Executive sessions of the independent directors are held in conjunction with regularly scheduled meetings of the Board of Directors and as otherwise deemed necessary. Robert L. Yohe is the acting lead independent director of the Board.

The Board has adopted the following procedure for stockholders and other interested parties to communicate with the Board. All such communications should be sent by email to the Chairman of the Board at the address found on the Company's website, www.middleby.com, or by regular mail to the Chairman of the Board at the Company's executive office in Elgin, Illinois. The Chairman will collect and organize all such communications, deleting any sales or other solicitations and any which contain offensive material. A summary of the communications received will be periodically provided to the Board, which will determine the disposition of any such communication.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The following Compensation Discussion and Analysis describes the material elements of compensation for The Middleby Corporation executive officers identified in the Summary Compensation Table as the “Named Executive Officers”.

The Board has a Compensation Committee (the “Committee”) which, during the course of 2006, was composed of the following outside directors, each of whom is “independent” in accordance with the governance rules of the Nasdaq Stock Market: Robert L. Yohe, Chairman, Ryan Levenson, Gordon O’Brien and John R. Miller III. The Committee is appointed by, and responsible to, the Board for making recommendations to the Board, and approving where appropriate, all matters related to executive and non-employee director compensation.

Middleby Business Environment

The Middleby Corporation is a global leader in the foodservice equipment industry. The Company develops, manufactures, markets and services a broad line of equipment used for commercial food cooking, preparation and processing. The Company’s leading brands include Blodgett®, Blodgett Combi®, Blodgett Range®, CTX®, Houno®, MagiKitch’n®, Middleby Marshall®, Pitco Frialator®, Southbend®, NU-Vu®, Alkar®, RapidPak®, and Toastmaster®. Middleby’s international subsidiary, Middleby Worldwide, is a leading exporter and distributor of foodservice and the Middleby Philippines Corporation, is a leading supplier of specialty equipment in Asian markets. In 2006, The Middleby Corporation was ranked no. 6 on the Forbes 200 Best Small Companies list.

Compensation Committee Structure

The Committee is currently comprised of four directors, named above, and at all times will consist of two or more persons, each of whom shall be an “outside director” within the meaning of Section 162(m) of the Internal Revenue Code of 1986 (the “Code”). The Committee includes a chairperson and may make rules and regulations for the conduct of its business as it deems advisable and keeps minutes of Committee meetings. All determinations of the Committee are made by a majority of its members either present in person or participating by conference telephone at a meeting or by written consent. The Committee may delegate to one or more of its members or to one or more agents such duties as it may deem advisable, and the Committee or any person to whom it has delegated duties may employ the services of one or more individuals to render advice with respect to any responsibility of the Committee.

For additional information on the members, structure, scope of authority and operation of the Committee, see “Committees; Board Meetings” and “Proposal 1—Election of Directors.”

The Committee makes all decisions over total compensation for Named Executive Officers and other members of senior management, which involves decisions regarding base salary, annual cash-based incentive plan bonuses, and long term equity incentive plan awards. The Committee’s recommendations for compensation arrangements of the Chairman of the Board, Chief Executive Officer and President (the “CEO”) are presented to the full Board of Directors for approval.

Compensation Programs Objectives

The Company's compensation and benefits programs are influenced by the Company's business culture and are designed to maximize strategic Company goals. The Company's compensation program objectives are as follows:

- **Attract and Retain Executive Talent**—The Committee intends to provide compensation packages that will attract and retain qualified executive talent and deliver increasing rewards for extraordinary performance;
- **Link Executive Compensation with Operating Performance**—The Committee structures a portion of the compensation for Named Executive Officers and senior management to vary with the Company's financial and operating performance. This requires that a significant portion of executive compensation is "at-risk" and linked to the achievement of both corporate and individual goals, in order to increase shareholder value;
- **Link Executive Long-Term Incentive Compensation with Shareholder Interests**—The Committee believes that granting long term equity based awards using stock options, restricted stock, stock appreciation rights, or performance units, aligns the interests of Company executives with those of shareholders and furthers the Company's goal of executive retention by using time-based vesting of equity awards;
- **Performance-based compensation to Comply with Section 162(m) of the Internal Revenue Code**—Performance-based compensation provided to Named Executive Officers and senior management should comply with the requirements that qualify the compensation as tax deductible to the Company, unless the Company determines under particular circumstances that it is in the Company's best interest to provide compensation that is not tax deductible.

Compensation Decision Making Process

The CEO annually reviews the operating performance of each executive officer. Elements of executive reviews include an analysis of actual operating performance versus pre-determined operating performance targets, measures taken to improve efficiency of operations within the executive's area of responsibility and assessment of the executive's commitment to the Company's core operating principles. Based on the CEO review, the CEO develops a recommendation to the Committee for each executive's annual base salary, annual performance incentive plan structure, and the basis for long term equity based grants. The Committee uses the same methodology for the annual base salary and performance-based bonus structure of the CEO.

With respect to annual cash bonus awards, the Committee determines the minimum amount of operating performance that must be achieved each year in order for an annual performance bonus to be paid. Target levels are set to be in line with the Company's annual budget and are presented by the CEO to the Board of Directors for review and approval. The total compensation of Named Executive Officers and senior management of the company are set at levels intended to be competitive with amounts paid to executive officers and senior managers with comparable qualifications, experience, and responsibilities at other businesses of similar type or market capitalization, with an emphasis on pay for performance.

The Elements of the Company's Compensation Program

The Company's compensation program is divided into three elements: (1) base salary, (2) annual performance incentive programs, and (3) long term equity-based incentive programs.

Base Salary

The base salary element of the compensation program sets executives base salaries at levels estimated to be below that of the median for executives in comparable positions at other similarly sized companies. Annual non-executive salary increases are budgeted based on the current business environment and the individual's level of responsibility and merit within the Company. For 2006 the range of non-executive salary increases was between 2% and 4.5% of base salary. The table below sets forth the base salary levels and associated changes for Named Executive Officers for the 2006 fiscal year. The base salary of Mr. Dei Dolori, our Group President, was increased in recognition of increased responsibilities for the Company's Southbend division.

	2005 Base Salary	2006 Base Salary	% Change
Selim A. Bassoul	\$ 770,000	\$ 770,000	0%
Timothy J. FitzGerald	\$ 250,000	\$ 250,000	0%
Phil Dei Dolori	\$ 258,000	\$ 300,000	16%
Mark Sieron	\$ 161,035	\$ 161,035	0%
Nazih Ibrahim	\$ 150,000	\$ 150,000	0%

Annual Performance-Based Incentive Programs

Management Incentive Compensation Plan

The Management Incentive Compensation Plan ("MICP") is intended to provide an incentive for superior performance and to motivate eligible employees ("MICP Participants") toward the highest level of achievement and business results, to tie their goals and interests to those of the Company and its shareholders, and to enable the Company to attract and retain highly qualified executive officers. Each of the Named Executive Officers is eligible to participate in the MICP if selected by the Committee for participation, and all of the Named Executive Officers participated in the MICP in 2006.

Payment of MICP bonuses are made subject to the attainment of pre-established written performance goals approved by the Committee prior to the 90th day following the beginning of the Company's fiscal year. For 2006, the performance goals were based upon attaining certain levels of earnings before interest, taxes, depreciation, and amortization ("EBITDA") for the fiscal year. The Named Executive Officers had the opportunity to earn bonuses under the MICP based on the following:

- A minimum EBITDA goal that must be achieved prior to the payment of the MICP Participant's target MICP bonus. The MICP will not pay bonuses to MICP Participants if actual EBITDA performance is below the minimum EBITDA goal.
- Tiered performance goals above the minimum EBITDA goal, which if met lead to an incrementally higher annual bonus.
- A maximum EBITDA that, if achieved or surpassed will result in the payment the maximum MICP bonus available to the MICP Participant. For 2006 the EBITDA goal resulting in maximum pay for maximum performance was equal to a 14.7% increase in EBITDA over the prior year's results for Messrs. Bassoul and FitzGerald; an 21.9% increase in EBITDA targets relating to Pitco Frialator, Inc., GS Blodgett Corporation and Southbend over the prior year's results in the case of Mr. Dei Dolori; an 23.0% increase in EBITDA targets relating to Middleby Cooking Systems Group over the prior year's results in the case of Mr. Sieron; and an 22.3% increase in EBITDA targets relating to the Southbend operating division over the prior year's results in the case of Mr. Ibrahim.

The amount of the MICP bonus for MICP Participants at each EBITDA performance goal level is consistent with that individual's role and responsibility within the Company. The Grants of Plan-Based Awards Table below shows the amounts which could have been earned by the Named Executive Officers under the MICP at target and maximum performance.

EBITDA is determined by the Committee in accordance with Generally Accepted Accounting Principles, subject to adjustment to reflect the impact of specific extraordinary items not reflected in the MICP Participant goals. Under the MICP, the EBITDA calculation does not include foreign exchange gains/losses and does include all bonuses and incentive compensation payable, including MICP payments, to Company employees for the applicable year.

Payments of MICP bonuses, if any, are made after the completion of the Company's fiscal year end audit and only after the Committee certifies that the EBITDA goals with respect to which MICP payments are to be made have been attained. The bonus awarded to each Named Executive Officer in respect of 2006 performance under the MICP is reflected in the "Non-Equity Incentive Plan Compensation" column of the Summary Compensation Table below. The Company achieved the maximum EBITDA goal under the MICP in 2006 and as a result, Messrs. Bassoul, FitzGerald, Dei Dolori, Sieron, and Ibrahim, respectively, received the maximum MICP bonus for the year as follows: \$3,500,000, \$600,000, \$600,000, \$313,621 and \$250,000. Mr. Sieron's 2006 MICP bonus was adjusted in the discretion of the Committee as permitted by the plan to take into account expenses relating to the relocation of the Toastmaster business unit.

Stock ownership requirement. The MICP plan supports the Company's desire for Named Executive Officers and senior executives to maintain a minimum percentage of base salary in the form of Middleby Corporation common stock ownership. Unexercised stock options are not considered in calculating the stock ownership requirement. The base salary percentages are set by the Committee annually and are set at levels consistent with the individual's level of responsibility within the Company. If an MICP Participant meets or exceeds their stock ownership requirement, then they are eligible to receive 100% of their MICP bonus. If an MICP Participant does not meet their stock ownership requirement, then a maximum of one-third of their MICP bonus will be used to purchase common stock on the MICP Participant's behalf.

Stock ownership requirements of the Named Executive Officers as of December 30, 2006 are as follows:

<u>Named Executive Officer</u>	<u>Stock Ownership Requirement (multiple of base salary)</u>	<u>Stock Ownership Requirement (shares)</u>	<u>Actual Stock Ownership (shares)</u>
Selim A. Bassoul	3 x base salary	22,070	326,356(1)
Timothy J. FitzGerald	2 x base salary	4,777	70,246(2)

Executive Officer Incentive Plan

The Executive Officer Incentive Plan (“EOIP”) is an annual cash-based incentive plan that operates with the purpose of reinforcing corporate, organizational and business-development goals; to promote the achievement of year-to-year financial and other core business objectives; and to reward the performance of the Company’s key employees in fulfilling their individual responsibilities. The EOIP provides an essential component of the total compensation package offered to Named Executive Officers. It reflects the importance placed by the Company on motivating employees to achieve superior results over a long term and paying employees based on that kind of achievement.

EOIP awards are granted to key employees (the “EOIP Participants”) of the Company who are selected by the Committee in its sole discretion. In determining the EOIP Participants to whom EOIP awards are granted, the Company considers key employees who exhibit extraordinary performance in achieving year-to-year financial goals and further exceed the core business objectives of the Company. For 2006, the CEO and CFO participated in the EOIP.

Performance periods for EOIP awards are as follows:

- January 1, 2006 to December 31, 2006
- January 1, 2007 to December 31, 2007
- January 1, 2008 to December 31, 2008
- January 1, 2009 to December 31, 2009
- January 1, 2010 to December 31, 2010

At the beginning of each performance period the Committee will establish performance goals applicable to the EOIP award. Performance goals may include a threshold level of performance below which an EOIP bonus will not be earned, levels of performance at which a specified EOIP bonus will be earned, and a maximum level of performance beyond which no additional EOIP bonus will be earned. For 2006, the performance goals selected by the Committee related to earnings per share. The EOIP Participant could earn a target bonus amount in the event of an increase in EPS of 10% over the prior year’s result. The EOIP further provided incremental incentives for EPS targets between 10% and 16.5% over the prior year’s results. The Middleby Corporation attained an EPS of \$5.13 per share for 2006, which far surpassed the maximum goal under the EOIP. As a result, each of Mr. Bassoul and Mr. FitzGerald earned the maximum bonus awarded under the EOIP of \$1,342,258 and \$223,719, respectively.

Payment of an EOIP award is made only if performance goals as specified by the Committee are attained and if the EOIP Participant is employed by the Company on the last day of the applicable performance period. In no event may an EOIP award for a performance period exceed \$3.5 million per award. The Committee may, in its sole discretion, decrease the amount payable to an EOIP participant upon achievement of performance goals, but in no event may the Committee increase the EOIP amount otherwise payable to the EOIP participant.

Long Term Equity-Based Incentive Programs

The 1998 Stock Incentive Plan (“the “1998 Plan”) is an equity-based incentive plan that encourages Named Executive Officers and senior management of the Company and its subsidiaries to have common stock ownership in the Company and further aligns the interests of Named Executive Officers and senior management with those of stockholders. The Committee is authorized to make

grants of stock options, stock appreciation rights, restricted stock or performance stock under the 1998 Plan.

Generally, the Committee determines the overall size of the long-term incentive award for each executive officer, including the CEO and CFO. The CEO will make recommendations to the Compensation Committee regarding award levels for executive officers other than the CEO. However, the Committee may also make grants at varying times of the year, generally in connection with new employment arrangements or promotions, or based on the availability of shares under Company's shareholder approved long-term equity compensation plans. The Committee has made such awards without regard to the release of the Company's financial results for the year or the release of any other material non-public information. No equity-based awards were made to the Named Executive Officers during 2006.

No Backdating: The Company does not backdate options or grant options retroactively. All grants to any Company employee are approved by the Committee and are presented to the full Board for final approval. The exercise price of an option is set at the fair market value of the underlying Common Stock, which is equal to the closing market price of such stock on the date of grant and this method has been consistently applied.

Pension Plans

Pursuant to his employment agreement, the CEO is entitled to a nonqualified defined benefit pension benefit as follows: Upon the CEO's retirement on or after the date on which he attains the age of 55 (the "Age 55 Retirement Benefit"), but in no event prior thereto, he shall be fully vested in a monthly retirement benefit equal to one-twelfth of 50% of his then current base salary, payable for the remainder of his life. If the CEO retires after the date on which he attains the age of 60 (the "Age 60 Retirement Benefit"), he shall be fully vested in a monthly retirement benefit equal to one-twelfth of 62.5% of his then current base salary, in lieu of the age 55 Retirement Benefit, payable for the remainder of his life. If the CEO retires after the date on which he attains the age of 65, he shall be fully vested in a monthly retirement benefit equal to one-twelfth of 75% of his then current base salary, in lieu of the age 60 Retirement Benefit, payable for the remainder of his life. The estimated monthly retirement benefit payable to the CEO is based on his compensation level as of December 30, 2006 would be \$32,083 at the retirement age of 55, \$40,104 at the retirement age of 60, and \$48,125 at the retirement age of 65. The amount of the CEO's nonqualified retirement benefit would be offset by the amount of the CEO's accrued benefits under the tax-qualified plans maintained by the Company, other than any portion of such benefits that are attributable to the CEO's own contributions to the qualified plans.

The CEO and his dependents are entitled to continue to participate in all health and medical plans and programs which the Company maintains for its senior executives and their families for life, subject to any Medicare coverage being the primary coverage.

Perquisites

Named Executive Officers of the Company and senior executives of the Company are offered limited perquisites. In general, executives in sales oriented positions are offered an automobile expense reimbursement that varies by individual, but, in no event exceeds ten thousand dollars per fiscal year. The CEO is offered the use of a Company automobile, with the associated income taxes added to annual income, and is reimbursed for the cost of annual income tax planning services.

On March 8, 2007, the Company made awards of restricted stock to each of the NEOs as follows: Mr. Bassoul, 69,500 shares, Mr. FitzGerald, 22,500 shares, Mr. Dei Dolori, 15,000, shares, Mr. Sieron, 10,000 shares and Mr. Ibrahim, 5,000 shares. Mr. Bassoul's award was made pursuant to the terms of the Company's 1998 Stock Incentive Plan and will only become vested based on the achievement of specified significant increases in the market price of the common stock over a seven-year period.

Accounting and Tax Implications of Executive Compensation

Current federal tax law imposes an annual individual limit of \$1 million on the deductibility of the Company's compensation payments to the CEO and its four most highly compensated other executive officers. Performance-based compensation that satisfies the conditions of Section 162(m) of the Code is excluded for purposes of this limitation. The 2006 awards made to the CEO and the other executive officers pursuant to the MICP, as well as the awards made pursuant to the EOIP to the CEO and CFO, were subject to, and made in accordance with, the Committee's pre-established performance goals. The 2007 restricted stock grants described above were designed to comply with the requirements of Section 162(m) of the Code.

Potential Payments Upon Termination or Change in Control

Under Employment Agreements

Selim Bassoul

During the term of Mr. Bassoul's employment agreement with the Company (see above "Employment Agreements"), the parties have the right to terminate the agreement at any time and, in the case of any termination, Mr. Bassoul will be paid all compensation accrued to date, including, in the event that the termination is by the Company and MM for reasons other than cause, a pro rata share of incentive

compensation under the Management Incentive Compensation Plan that would otherwise have been payable to him had he remained employed by the Company until the last day of the fiscal year, such pro rata share to be paid following the conclusion of the fiscal year for which payable. Under the employment agreement, if the Company terminates Mr. Bassoul's employment without cause, Mr. Bassoul terminates his employment due to a material diminution of his duties or a change in his title, or Mr. Bassoul terminates his employment within the six-month period following a change in control, Mr. Bassoul will be entitled to an amount equal to three times the sum of his annual base salary and the greater of (x) the amount of incentive compensation earned under the Management Incentive Compensation Plan with respect to the full calendar year immediately prior to the date of termination and (y) the average incentive compensation paid to Mr. Bassoul under the Management Incentive Compensation Plan for each of the three calendar years immediately prior to the date of termination. Further, the employment agreement provides that if Mr. Bassoul's employment agreement is terminated by either party, for reasons other than cause, Mr. Bassoul and his dependents are entitled to continue to participate in all health and medical plans and programs which the Company maintains for its senior executives and their families until the later of the death of Mr. Bassoul or his spouse, subject to any Medicare coverage being the primary coverage. The agreement also provides Mr. Bassoul with certain additional payments intended to reimburse him for the excise tax payable should any payments made to him in the event of a change in control be subject to the excise tax imposed on "excess parachute payments" under section 4999 of the Code, and to reimburse him for the income, excise and employment taxes on the reimbursement payment.

Timothy J. FitzGerald

During the term of Mr. FitzGerald's employment agreement (see above "Employment Agreements"), Mr. FitzGerald's employment may be terminated by the Employer (defined as the Company and MM) or by Mr. FitzGerald at any time, or by the death of Mr. FitzGerald. The employment agreement provides Mr. FitzGerald with the following severance benefits. If the Employer terminates Mr. FitzGerald's employment without "cause" (as defined in the employment agreement), or if Mr. FitzGerald terminates his employment within six months following a change in control of the Company, Mr. FitzGerald will be entitled to a lump sum payment equal to two times the sum of: (a) Mr. FitzGerald's annual base salary for the full calendar year immediately prior to the date of termination, and (b) the greater of (i) the amount of his annual bonus paid under the Company's Management Incentive Compensation Plan with respect to the full calendar year immediately prior to the year of termination and (ii) the average of Mr. FitzGerald's annual bonuses paid under the Management Incentive Compensation Plan for each of the two calendar years immediately prior to the year of termination. Mr. FitzGerald will also be entitled to an additional payment (referred to as a "gross-up" payment) to cover the amount of any excise tax, including income taxes and excise taxes incurred with respect to the gross-up payment, in the event that any amount payable to him in connection with a change in control of the Company results in the excise tax imposed on "excess parachute payments" under the Code.

Other Named Executive Officers

The Named Executive Officers other than our CEO and CFO do not have any employment or severance agreements with the Company. In the event of termination (including in connection with a change in control), payment of severance and a prorated MICP bonus may be approved by the Compensation Committee in their discretion. Stock option grants would vest in accordance with grant provisions.

Under Equity Incentive Plans

Outstanding stock options held by the Named Executive Officers become fully vested upon a change in control of the Company. Pursuant to the terms of their respective employment agreements described above, the restricted stock held by Messrs. Bassoul and FitzGerald becomes vested upon certain terminations of employment, as shown in the tables below.

Upon termination of employment for reasons other than disability or death, each of the Named Executive Officers would be entitled to exercise then-vested stock options for a period of three months days following such termination of employment. In the event of the disability or death of the Named Executive Officer, the executive or his estate or beneficiary, as the case may be, would be entitled to exercise then-vested stock options for a period of one year following such termination.

The 2006 award value for each individual grant under SFAS 123R determined at the time of issuance was \$18,049. On March 7, 2007 the company determined that these options were inadvertently issued under the 1998 Stock Incentive Plan, which did not provide for option grants to non-employee directors. On March 8, 2007 the Company rescinded all 500 options granted to each member.
- (5) The Company maintains an unfunded retirement plan for non-employee directors. The plan provides for an annual benefit upon a change in control or retirement from the Board of Directors at age 70, equal to 100% of the director's last annual fee (excluding meeting fees), payable on a quarterly basis for a number of years equal to the director's years of service, up to a maximum of 10 years. In November, 2006, the Board of Directors approved the termination of The Middleby Corporation Board of Directors pension plan ("Plan"). All current Directors with more than 10 years of service to the Company will remain in the Plan and will be allowed to continue to have benefits vest and accrue in the Plan until they meet the Plan retirement age of 70, at which point their respective Plan distributions will begin. Any future Board members will not be eligible for the Plan. The Director's retirement plan obligation is calculated using an interest rate of 5/75% for a director retiring at age 70, and a benefit payout term of 10 years.

The Audit Committee Charter provides that the Audit Committee shall pre-approve all audit and permitted non-audit services to be performed by the independent auditors (subject to the de minimis exceptions under applicable law, rules and regulations). However, the Audit Committee may delegate to one or more designated members of the Audit Committee the authority to grant such pre-approvals, and the decisions of any member to whom such authority is delegated shall be presented to the full Audit Committee at its next regularly scheduled meeting. In determining whether to pre-approve permitted non-audit services, the Audit Committee (or the members with authority to pre-approve) shall consider whether the auditor’s performance of such services is compatible with independence.

**PROPOSAL NO. 2—RATIFICATION OF SELECTION OF
INDEPENDENT PUBLIC ACCOUNTANTS**

Deloitte & Touche LLP served as independent public accountants for the Company for the fiscal year ended December 30, 2006. The Audit Committee has selected Deloitte & Touche LLP to continue to provide audit services for the current fiscal year ending December 29, 2007. Accordingly, the Board recommends that stockholders ratify the selection of Deloitte & Touche LLP to audit the Company for the current fiscal year. Representatives of Deloitte & Touche LLP are expected to attend the annual meeting, to make a statement if they desire to do so, and to be available to respond to appropriate questions.

Vote Required for Approval; Board Recommendation

The vote of a majority of votes cast at the Meeting, at which a quorum is present, is necessary to approve the proposal to ratify the selection of Deloitte & Touche LLP as the Company's independent public accountants.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE "FOR" THE RATIFICATION OF THE SELECTION OF DELOITTE & TOUCHE LLP.

**PROPOSAL NO. 3—APPROVAL OF AN AMENDMENT TO
THE RESTATED CERTIFICATE OF INCORPORATION**

The Board has determined that it is in the Company's best interest and in the best interest of the Company's stockholders to amend the Company's Restated Certificate of Incorporation (as amended, the "Certificate of Incorporation") to increase the total number of authorized shares of Common Stock from 20,000,000 shares to 47,500,000 shares. The Board unanimously approved the proposed amendment to the Certificate of Incorporation, in substantially the form attached hereto as Appendix B (the "Amendment"), declared it to be advisable and hereby seeks the approval of the Amendment by the Company's stockholders.

If the Amendment is approved by the Company's stockholders, the Amendment will become effective upon the filing of a certificate of amendment with the Delaware Secretary of State, which filing is expected to occur promptly after the Meeting.

Purpose of the Amendment

The purpose of the Amendment is to increase the total number of authorized shares of Common Stock from 20,000,000 shares to 47,500,000 shares. The additional authorized shares could be used by the Company for business and financial purposes as determined by the Board from time to time to be necessary or desirable. Subject to favorable market conditions and approval of the Amendment, the Company currently plans to use a number of the additional shares of Common Stock to effect a stock split, in the form of a stock dividend payable on all outstanding shares of Common Stock. The Board anticipates approving a two-for-one stock split in the future, but the final decision on when or whether to implement a stock split and the magnitude of the stock split will be based on market conditions and remain in the Board's sole discretion. The proposed increase in the number of authorized shares of Common Stock is necessary because, after accounting for a potential two-for-one stock split, the Board believes the remaining number of authorized shares of Common Stock that would not be reserved or outstanding would not be sufficient to provide the Company with the flexibility to meet future business needs as they arise, such as additional stock offerings, acquisitions,

stock splits, stock dividends and issuances of shares under compensation plans. Stockholder approval of a stock split effected in the form of a stock dividend is not required under Delaware law, is not being solicited by this Proxy Statement and will not be solicited in the future in order to effect a potential stock split.

The objective of a stock split would be to lower the market price of the Common Stock in inverse proportion to the stock split. Such lower price would be expected to increase the liquidity and broaden the marketability of the Common Stock to a larger group of investors. The Board may decide, however, in the best interests of the Company and due to market conditions or otherwise, not to effect a stock split. Therefore, no assurances can be given that the Board will effect a stock split, even if the Amendment is approved.

If a stock split is effected, each stockholder would receive, for each share of Common Stock held by such stockholder on the record date for the stock split that would be established by the Board, a dividend of the Common Stock. For example, if the Board declares a two-for-one stock split, each stockholder would receive one additional share of Common Stock for each share held. In addition, the Company's outstanding stock options, stock purchase rights and warrants, if any, would be proportionately adjusted such that the number of shares underlying the Company's outstanding stock options, stock purchase rights and warrants would be increased (for example, doubled in a two-for-one stock split) and the exercise price would be reduced (for example, halved in a two-for-one stock split). In the event of a stock split, the Company will apply for listing of the additional shares of Common Stock to be issued on the NASDAQ National Market.

As of the Record Date, there were 7,975,623 shares of Common Stock outstanding and held by the Company's stockholders (exclusive of 3,855,044 shares of Common Stock held in treasury). In addition to these shares, as of the Record Date, there were 1,840 shares of Common Stock reserved for issuance under the Company's equity compensation plans.

Other possible business and financial uses for the additional shares of Common Stock include, without limitation, future stock splits, raising capital through the sale of Common Stock, acquiring other companies, businesses or products in exchange for shares of Common Stock, attracting and retaining employees by the issuance of additional securities under the Company's various equity compensation plans, and other transactions and corporate purposes that the Board deems are in the Company's best interest. The additional authorized shares would enable the Company to act quickly in response to opportunities that may arise for these types of transactions, in most cases without the necessity of obtaining further stockholder approval and holding a special stockholders' meeting before such issuance(s) could proceed, except as provided under Delaware law or under the rules of the NASDAQ National Market. Other than a possible stock split and issuances pursuant to employee benefit plans, as of the date of this Proxy Statement the Company has no current plans, arrangements or understandings regarding the additional shares that would be authorized pursuant to this proposal. However, the Company reviews and evaluates potential capital raising activities, transactions and other corporate actions on an on-going basis to determine if such actions would be in the best interests of the Company and its stockholders.

Possible Effects of the Amendment

Upon issuance, the additional shares of authorized Common Stock would have rights identical to the currently outstanding shares of Common Stock. Adoption of the Amendment would not have any immediate dilutive effect on the proportionate voting power or other rights of existing stockholders. A potential stock split, should it be effected, would reduce the Company's earnings per share but would not affect voting rights of current stockholders, as each stockholder would continue to hold the same

percentage interest in the Company. However, to the extent that the additional authorized shares of Common Stock are issued in the future outside of a potential stock split, they may decrease existing stockholders' percentage equity ownership and, depending on the price at which they are issued, could be dilutive to the voting rights of existing stockholders and have a negative effect on the market price of the Common Stock. Current stockholders have no preemptive or similar rights, which means that current stockholders do not have a prior right to purchase any new issue of Common Stock in order to maintain their proportionate ownership thereof.

The Company has not proposed the increase in the number of authorized shares of Common Stock with the intention of using the additional authorized shares for anti-takeover purposes, but the Company would be able to use the additional shares to oppose a hostile takeover attempt or delay or prevent changes in control or management of the Company. For example, without further stockholder approval, the Board could sell shares of Common Stock in a private transaction to purchasers who would oppose a takeover or favor the current Board. Although this proposal to increase the authorized number of shares of Common Stock has been prompted by business and financial considerations and not by the threat of any known or threatened hostile takeover attempt or any effort of which we are aware to accumulate our stock or to obtain control of the Company (nor is the Board currently aware of any such attempt directed at us), stockholders should be aware that approval of this proposal could facilitate future efforts by the Company to oppose changes in control of the Company and perpetuate the Company's management, including transactions in which the stockholders might otherwise receive a premium for their shares over then current market prices.

The Company could also use the additional shares of Common Stock for potential strategic transactions including, among other things, acquisitions, spin-offs, strategic partnerships, joint ventures, restructurings, divestitures, business combinations and investments, although the Company has no present plans to do so. The Company cannot provide assurances that any such transactions will be consummated on favorable terms or at all, that they will enhance stockholder value or that they will not adversely affect the Company's business or the trading price of the Common Stock. Any such transactions may require the Company to incur non-recurring or other charges and may pose significant integration challenges and/or management and business disruptions, any of which could materially and adversely affect the Company's business and financial results.

Vote Required; Recommendation of the Board of Directors

The affirmative vote of a majority of the Company's outstanding shares of Common Stock is required for the approval of this proposal. Both abstentions and broker non-votes are not affirmative votes and, therefore, will have the same effect as votes against this proposal.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE "FOR" THE APPROVAL OF AN AMENDMENT TO THE RESTATED CERTIFICATE OF INCORPORATION.

PROPOSAL NO. 4—APPROVAL OF THE MIDDELBY CORPORATION 2007 STOCK INCENTIVE PLAN

The Middleby Corporation 2007 Stock Incentive Plan enables the board of directors (the "Board") to make discretionary grants of stock options, stock appreciation rights, restricted stock and performance-based stock to selected employees of the Company and its subsidiaries and non-employee directors. The Board believes that encouraging the employees of the Company and its subsidiaries to own Common Stock benefits the Company and its stockholders. The purpose of the 2007 Stock Incentive Plan is to assist the Company in attracting and retaining employees and non-

employee directors with experience and/or ability on a basis competitive with industry practices and to provide long-term incentive rewards to selected employees and non-employee directors intended to align the interests of such individuals with those of our stockholders.

To comply with Section 162(m) of the Code with respect to future grants, the 2007 Stock Incentive Plan (i) limits the number of shares with respect to which awards may be granted individually to any of the Chief Executive Officer, Chief Financial Officer or the next three most highly compensated executives of the Company (each, an "Executive Officer") to 100,000 during any fiscal year during which such individual serves in that capacity, and (ii) provides that certain required decisions concerning grants under the 2007 Stock Incentive Plan will be made by a committee of "outside directors" appointed by the Board of Directors. Section 162(m) of the Code limits the deductible compensation paid to covered executive officers of publicly held corporations to \$1,000,000. Any taxable compensation which is recognized by an Executive Officer upon (i) the exercise of a Non-qualified Option or (ii) a disqualifying disposition of stock acquired under an Incentive Stock Option, is subject to the limit. However, the limit will not apply if the options are granted under a stockholder-approved plan document which specifies the maximum number of shares that can be granted to an Executive Officer during the corporation's tax year, provided that each grant is determined by a directors' committee which is comprised solely of "outside directors."

This Proposal is being submitted to stockholders in order to ensure the 2007 Stock Incentive Plan's compliance with the Nasdaq Stock Market rules relating to equity compensation plans, as well as to ensure the 2007 Stock Incentive Plan's compliance with Section 162(m) of the Code.

If stockholders approve the proposed amendment to the 2007 Stock Incentive Plan, (i) the aggregate number of shares of Common Stock available for grants under the 2007 Stock Incentive Plan will be 100,000 and (ii) the annual limit on grants to any single individual participant in any single fiscal year will be 100,000 shares of Common Stock. In addition, options and stock appreciation rights awarded under the 2007 Stock Incentive Plan will be granted with an exercise price equal to no less than the fair market value of the underlying Common Stock on the date of grant. Under the 2007 Stock Incentive Plan, grants may not be made to the extent that an award of options or stock appreciation rights would cause the Company's burn rate (as defined below), as an average over the three year period from 2007 through 2009, to exceed 2.57% per year. The burn rate will be calculated as (i) the number of shares of Common Stock underlying (a) stock options, (b) stock-settled stock appreciation rights, (c) restricted stock, (d) restricted stock units, (d) performance stock actually earned and delivered or deferred, and (e) similar awards that may be settled by the delivery of shares, divided by (ii) the number of shares of Common Stock outstanding at the beginning of the fiscal year. Stock appreciation rights or full value shares settled in cash will not be included in the calculation of burn rate. This limitation applies with respect to the Company's equity awards under the 2007 Stock Incentive Plan, the Company's 1998 Stock Incentive Plan, as amended, and any other equity compensation plan (as defined by the Nasdaq Stock Market rules), but excluding plans assumed in acquisitions and tax-qualified plans.

On March 22, 2007, the last reported sale price of Common Stock on the Nasdaq Stock Market was \$129.48 per share.

The following is a summary of the principal features of the 2007 Stock Incentive Plan, as proposed for stockholder approval. The summary is subject in its entirety to the complete text of the 2007 Stock Incentive Plan which is set out in Appendix C attached to this Proxy Statement.

PRINCIPAL FEATURES OF THE 2007 STOCK INCENTIVE PLAN

Administration of the Plan. The Board administers the 2007 Stock Incentive Plan. The Board has the authority to make grants and to determine their terms; provided, however, that the selection of eligible individuals for participation and decisions concerning the timing, pricing and amount of a grant are made solely by a committee consisting of two or more directors who are (a) “non-employee directors” under Rule 16b-3 of the Exchange Act, (b) “outside directors” under Section 162(m) of the Code and “independent directors” pursuant to Nasdaq requirements. Subject to the provisions of the 2007 Stock Incentive Plan, the Board has the authority to interpret the provisions of the 2007 Stock Incentive Plan, to adopt any rules, procedures and forms necessary for the operation and administration of the 2007 Stock Incentive Plan, and to determine all questions relating to the eligibility and other rights of all persons under the 2007 Stock Incentive Plan.

Eligibility. All employees of the Company and its subsidiaries and affiliates are eligible to be participants. The Company’s non-employee directors as well non-employee service providers are also eligible to be selected for grants under the 2007 Stock Incentive Plan.

Shares Available for Grant; Individual Award Limits. The Board has authorized up to 100,000 shares of Common Stock for issuance under the 2007 Stock Incentive Plan. No more than 100,000 shares may be issued with respect to grants made in any single year to any individual participant. If a grant expires or is canceled, any shares which were not issued or fully vested under the grant at the time of expiration or cancellation will again be available for grants. Any shares of Common Stock used for the payment of required tax withholding amounts or the exercise price applicable to a grant, shall count against the total number of shares available for issuance under the Plan.

The shares of stock deliverable under the 2007 Stock Incentive Plan may consist in whole or in part of unissued shares or reacquired shares.

Adjustments. The number and kind of shares of Common Stock available for grants under the 2007 Stock Incentive Plan, the number and kind of shares of Common Stock issued in respect of outstanding grants, the exercise price, grant price or purchase price and any individual limitations applicable to grants are subject to adjustment if there are changes affecting the Common Stock, such as a merger, consolidation, stock dividend, split-up, combination, or exchange of shares, recapitalization or change in capitalization with respect to the shares of Common Stock. Each such adjustment, however, with respect to incentive stock options shall be made in accordance with the provisions of Section 424(h) of the Code and any regulations or guidance promulgated thereunder; and no such adjustment shall cause any Grant hereunder which is or becomes subject to Section 409A of the Code to fail to comply with the requirements of such section.

Types of Awards. The 2007 Stock Incentive Plan permits the grant of any or all of the following types of awards: (1) stock options, including incentive stock options, (2) stock appreciation rights (“SARs”), in tandem with stock options or free-standing, (3) restricted stock, and (4) performance stock.

Stock Options. Options may be either “Incentive Stock Options,” as defined in Section 422 of the Internal Revenue Code (the “Code”), or options not intended to be so qualified (“Non-qualified Options”). The Board may grant more than one option to a participant during the life of the 2007 Stock Incentive Plan, and such option may be in addition to an option or options previously granted. However, the aggregate fair market value of stock with respect to which Incentive Stock Options are exercisable for the first time by such individual during any calendar year (under all stock option plans of the Company and its subsidiaries) may not exceed \$100,000. Incentive Stock Options shall be exercisable at no less than 100% of the fair market value of the shares on the date of grant, subject to anti-dilution provisions. However, if any Incentive Stock Option is granted to an individual who owns more than 10% of the total combined voting power of all classes of stock of the Company, actually or

constructively under Section 424 of the Code, the exercise price shall be 110% of the fair market value of the stock subject to the option in the date of grant. Incentive Stock Options may only be granted to eligible employees.

The 2007 Stock Incentive Plan provides that Non-qualified Options may not be granted at less than 100% of the fair market value of shares on the date of grant.

Options granted pursuant to the 2007 Stock Incentive Plan will generally be transferable only by will or by laws governing descent and distribution, and during the lifetime of an optionee, will be exercisable only by the optionee. However, subject to the approval of the Board, the 2007 Stock Incentive Plan provides that an option may be transferable, as permitted under the Exchange Act, as long as such transfers are made to one or more of the following: family members, including children of the optionee, the spouse of the optionee, or grandchildren of the optionee, trusts for such family members or charities ("Transferees"), and provided that such transfer is a bona fide gift and, accordingly, the optionee receives no consideration for the transfer, and that the options transferred continue to be subject to the same terms and conditions that were applicable to the options immediately prior to the transfer. In the event of such a transfer, the Transferee may not subsequently transfer such option. However, the designation of a beneficiary will not constitute a transfer.

Unless otherwise provided in a stock option award agreement, no option will be exercisable following three months after termination of employment with the Company (or such shorter or longer period as the option may provide) unless such termination of employment occurs by reason of disability or death. In the event of the disability or death of an optionee while employed or in service of the Company or any subsidiary of the Company, the options or unexercisable portions thereof, to the extent exercisable on the date of disability or death, shall be exercisable for a period not to exceed the expiration of one year from the date of disability or death (or such shorter period as the option may provide). In no event, however, shall an option be exercisable after the expiration of ten years from the date such option was granted (five years in the case of Incentive Stock Options granted to an optionee owning more than 10% of the voting power of stock of the Company), or beyond the term for which it was granted.

Payment for shares of Common Stock purchased upon exercise of an option granted under the 2007 Stock Incentive Plan shall be made in full at the time of such exercise, whether in cash or shares of Common Stock (valued at fair market value), or in a combination of cash and shares of stock.

Stock Appreciation Rights. An SAR represents the right to receive, upon exercise, a payment which is equal to the increase (if any) in the fair market value of a share of Common Stock between the date of grant and the date of exercise. The payment for the increase in value may be made in the form of Common Stock, cash or in a combination of Common Stock and cash. The exercise price of a SAR may not be less than the fair market value per share of Common Stock on the date of grant.

An SAR may be granted free-standing or in tandem with new options. However, an SAR which is issued in tandem with an Incentive Stock Option will be subject to the following rules: (i) it will expire no later than at the expiration of the Incentive Stock Option; (ii) payment under the SAR will not exceed 100% of the difference between the exercise price of the option and the fair market value of stock on the date the SAR is exercised; (iii) it will be transferable only when the option is transferable, and under the same conditions; (iv) it will be exercisable only when the option is exercisable; and (v) it may only be exercised when the fair market value of the Company's stock exceeds the exercise price of the option. Subject to applicable law, payment by the Company upon exercise of an SAR will be in cash, stock, or any combination thereof as the Board shall determine.

No options granted under the Plan are exercisable after the expiration of ten years. Unless otherwise provided in a stock option award agreement, no outstanding and unvested option will vest following a participant's termination of employment. In the event a participant dies before such participant has fully exercised his or her option, then the option may be exercised at any time within one year after the participant's death by the his estate, but only to the extent that, at the date of death, the participant's right to exercise such option had vested. If a participant terminates employment because of permanent and total disability, he may exercise any vested options for up to one year following termination or for such shorter period as the option may provide. Finally, if a participant terminates employment for any reason other death or permanent and total disability, he may exercise all vested options for up to three months following termination or for such shorter period as the option may provide.

Restricted Stock. The 2007 Stock Incentive Plan provides that each grant of restricted stock shall include a description of the restrictions applicable to the grant and the conditions on which the restrictions may be removed. Each grant will also provide whether the recipient must pay any amount in connection with the grant and, if so, the amount and terms of that payment. Such amount shall not exceed 10% of the fair market value of the restricted stock at the time the grant is made, and may be for such lesser amount as shall be determined by the Board.

Performance Stock. The 2007 Stock Incentive Plan provides that each grant of performance stock shall include a description of any applicable provisions relating to the performance period and performance criteria. Performance stock awards offer certain employees or non-employee directors the potential for substantial financial incentives (in addition to potential appreciation in the value of Common Stock) based on continued service and the achievement of long-term Company performance goals, but in a manner that also places such individuals at risk in the event of poor Company performance.

Amendment or Termination of the Plan. The Board may suspend, amend or terminate the 2007 Stock Incentive Plan at any time and in such respects as it shall deem advisable, provided that, stockholder approval will be required for any amendment that would: (a) increase the total number of shares available for issuance under the plan, (b) extend the term of the plan, or (c) modify the class of individuals eligible to receive awards of options, SARs, restricted stock or performance stock under the plan. The Board may not amend or terminate the Plan to the extent that such amendment or termination would adversely effect a participant's rights pursuant to an award without the consent of the participant.

PLAN BENEFITS

Future grants under the 2007 Stock Incentive Plan will be made at the discretion of the Company and, accordingly, are not yet determinable. In addition, benefits under the 2007 Stock Incentive Plan will depend on a number of factors, including the fair market value Common Stock on future dates and the exercise decisions made by optionees. Consequently, it is not possible to determine the benefits that might be received by participants under the 2007 Stock Incentive Plan. However, in the event that stockholder approval is obtained for the 2007 Stock Incentive Plan, the Company may make grants under the 2007 Stock Incentive Plan to employees and to the Company's non-employee directors, as early as the Company's next regularly-scheduled board meeting. The Company did not make any grants under its 1998 Stock Incentive Plan in its fiscal year ended December 30, 2006. On March 8, 2007, the Company made the following grants under the 1998 Stock Incentive Plan:

<u>Name and Position</u>	<u>Shares of Restricted Stock</u>
Selim A. Bassoul, President and CEO	69,500
Timothy J. FitzGerald, Vice President and CFO	22,500
All current executive officers, including the Named Executive Officers (other than those listed above)	33,000
All current employees who are not executive officers as a group	41,000

FEDERAL INCOME TAX CONSEQUENCES OF PARTICIPATION IN THE 2007 STOCK INCENTIVE PLAN

Nonqualified Stock Options. With respect to Nonqualified Options, the difference between the option's exercise price and the fair market value of the underlying Common Stock on the date the option is exercised will be taxable as ordinary income to the optionee and will be deductible by the Company as compensation on such date. Gain or loss on the subsequent sale of such stock will be eligible for capital gain or loss treatment by the optionee and will have no federal income tax consequences to the Company.

An exchange of Common Stock in payment of the option price in the case of a Nonqualified Option is considered a tax-free exchange by the optionee to the extent of a like number of new shares, with the new shares retaining the basis and holding period of the old shares. The fair market value of any additional shares transferred to the optionee (representing the excess of the fair market value of all of the new shares over the fair market value of all of the old shares) will constitute ordinary income to the optionee and be deductible by the Company. This amount then becomes the optionee's basis in such shares.

Incentive Stock Options. With respect to Incentive Stock Options, if the optionee does not make a disqualifying disposition of stock acquired on exercise of such option, no income for federal income tax purposes will be recognized by the optionee upon the grant or exercise of the option (except that the amount by which the fair market value of the stock at time of exercise exceeds the option price will be a tax preference item under the expanded alternative minimum tax). In the event of a subsequent sale of the Common Stock received upon exercise, any amount realized in excess of cost will be taxed as short-term or long-term capital gain, depending on the period of time that the shares were held, and any loss sustained will be short- or long-term capital loss. In such case, the Company will not be entitled to a deduction for federal income tax purposes in connection with the issuance or exercise of the option.

A disqualifying disposition will occur if the optionee makes a disposition of the shares received upon exercise within two years from the date of the granting of the option or within one year after the exercise of such shares. If a disqualifying disposition is made, the difference between the option price

and the lesser of (i) the fair market value of the Common Stock at the time the option is exercised or (ii) the amount realized upon disposition of the Common Stock will be treated as ordinary income to the optionee at the time of disposition and will be allowed as a deduction to the Company.

An exchange of Common Stock in payment of the option's exercise price in the case of an Incentive Stock Option, if the exchange is not a disqualifying disposition of the stock exchanged, is considered to be tax-free. Under proposed regulations, a number of shares received upon exercise equal to the number of shares exchanged will have a basis equal to the basis of the shares exchanged and the remaining shares received will have a zero basis.

An exchange of statutory option stock to acquire other stock on exercise of an Incentive Stock Option is a taxable recognition transaction with respect to the stock disposed of if the minimum statutory holding period for such statutory option stock has not been met. Statutory option stock includes stock acquired through exercise of an Incentive Stock Option or an option granted under a qualified employee stock purchase plan. If there is such a premature disposition, ordinary income is attributed to the optionee (and will be deductible by the Company) to the extent of the optionee's "bargain" purchase on acquisition of the surrendered stock, and the post-acquisition appreciation in value of such stock is taxed to optionee as a short-term gain if held for less than the applicable holding period for long-term capital gains, and long-term capital gain if held for such applicable holding period, and will not be deductible by the Company. A portion of the excess of the amount deductible by the Company over the value of options when issued may be subject to the alternative minimum tax imposed on corporations.

Stock Appreciation Rights. With respect to SARs, the fair market value of shares issued and the amount of cash paid by the Company upon exercise of such rights will be taxable as ordinary income to the holder of the rights and will be deductible by the Company, in each case on the date of exercise. Gain or loss on the subsequent sale of such shares will be eligible for capital gain or loss treatment by the recipient and will have no federal income tax consequences to the Company.

Restricted Stock. With respect to grants of restricted stock, shares may be granted to a participant without recognition of income by the participant as long as the shares are not transferable and remain subject to a substantial risk of forfeiture. Upon the lapse of any restrictions on the transferability of the shares or the lapse of the conditions creating the risk of forfeiture, the participant is required to recognize ordinary income to the extent of the excess of the fair market value of the shares, determined at the time of the lapse of the applicable restrictions, over the price, if any, paid for the shares. The participant may, alternatively, elect to recognize income at the date of the award, in the amount of the then difference between the value of unrestricted shares and the price, if any, paid by the participant for the restricted shares. The Company is generally allowed a deduction in an amount equal to the income recognized by the participant in the year such income is recognized. Unless the election referred to above is made, dividends received during the continuation of restrictions on shares will be taxable to the participant as ordinary income for the periods in which such dividends are received, and such dividends will be deductible by the Company as compensation. Dividends received after the restrictions cease to apply will be taxed as dividends to the participant and will not be deductible by the Company.

Performance Stock. The tax consequences with respect to grants of performance stock will generally be the same as summarized above under the heading *Restricted Stock*.

The described tax consequences are based on current laws, regulations and interpretations thereof, all of which are subject to change. In addition, the discussion above is limited to federal income taxes and does not attempt to describe state and local tax effects which may accrue to participants or the Company.

Vote Required for Approval; Board Recommendation

The vote of a majority of votes cast at the Meeting, at which a quorum is present, is necessary to approve the proposal to approve the 2007 Stock Incentive Plan.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE “FOR” THE APPROVAL OF THE 2007 STOCK INCENTIVE PLAN.

Equity Compensation Plan Information

The following table provides information as of December 30, 2006 with respect to shares of Common Stock that may be issued under the Company’s existing equity compensation plans, including the 1998 Stock Incentive Plan and the 1989 Stock Incentive Plan.

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights (a)	Weighted Average Exercise Price of Outstanding Options, Warrants and Rights (b)	Number of Securities Remaining Available for Future Issuance (c)
Equity compensation plans approved by security holders	683,477	\$ 19.59	167,840(1)
Equity compensation plans not approved by security holders	6,500	\$ 52.47	N/A
Total	689,977	\$ 19.90	167,840(1)

NOTES:

- (1) The shares that remain available for issuance under the 1998 Stock Incentive Plan may be issued in the form of restricted Common Stock. As described in “Compensation Discussion and Analysis—2007 Actions,” on March 8, 2007 the Company made awards of restricted stock to the Named Executive Officers and other Company employees. Accordingly, as of the date hereof, only 1,840 shares remain available for issuance under the 1998 Stock Incentive Plan.

Summary of Equity Compensation Plans Not Approved by Stockholders

As of December 30, 2006, the Company had made four outstanding option grants to non-employee directors which were not approved by stockholders: a 1996 grant, a 2000 grant, a 2003 grant, and a 2006 grant. The Company believes that it is important to develop compensation and incentive packages that will attract and retain qualified members to serve on the Board of Directors, while linking their performance to increasing stockholder value. The Company believes that periodically granting stock options to board members is an effective means to achieving this goal. Each non-employee director received option grants to purchase 15,000 shares of Common Stock in 1996, 3,000 shares of Common Stock in 2000, 3000 shares of Common Stock in 2003, and 500 shares of

Common Stock in 2006. Such options were tied to the level of effectiveness of the Board of Directors in direct relation to creating stockholder value in the applicable year. Under each grant, the options were granted at the current market value, and the options vested immediately with a term of no longer than 10 years. The 2006 option grants were rescinded on March 8, 2007. Accordingly, such options are no longer outstanding.

ARTICLE II

STOCK AVAILABLE FOR GRANTS

Section 2.1 A maximum of 100,000 shares of Stock are available for Grants of Option or Stock Appreciation Rights under the Plan. The Stock available for Grants may include unissued or reacquired shares. If any shares subject to a Grant are forfeited, cancelled, exchanged or surrendered or if a Grant otherwise terminates or expires without a distribution of shares to the Recipient, the shares of Stock with respect to such Grant shall, to the extent of any such forfeiture, cancellation, exchange, surrender, termination or expiration, again be available for Grants under the Plan. Notwithstanding the foregoing, shares of Stock that are exchanged by a Recipient or withheld by the Company as full or partial payment in connection with any Grant under the Plan, as well as any shares of Stock exchanged by a Recipient or withheld by the Company or any subsidiary to satisfy the tax withholding obligations related to any Grant under the Plan, shall not be available for subsequent Grants under the Plan. Upon the exercise of any Grant made in tandem with any other Grants, such related Grants shall be canceled to the extent of the number of shares of Stock as to which the Grant is exercised and, notwithstanding the foregoing, such number of shares shall no longer be available for Grants under the Plan.

Section 2.2 Except as provided in a grant agreement or as otherwise provided in the Plan, in the event that the Board shall determine that any dividend or other distribution (whether in the form of cash, Stock, or other property), recapitalization, Stock split, reverse split, reorganization, merger, consolidation, spin-off, combination, repurchase, or share exchange, or other similar corporate transaction or event, affects the Stock such that an adjustment is appropriate in order to prevent dilution or enlargement of the rights of Recipients under the Plan, then the Board shall make such equitable changes or adjustments as it deems necessary or appropriate to any or all of (i) the number and kind of shares of Stock or other property (including cash) that may thereafter be issued in connection with Grants or the total number of shares of Stock issuable under the Plan pursuant to Section 2.1, (ii) the number and kind of shares of Stock or other property issued or issuable in respect of outstanding Grants, (iii) the exercise price, grant price or purchase price relating to any Grant, and (iv) any individual limitations applicable to Grants; provided that, with respect to incentive stock options, any adjustment shall be made in accordance with the provisions of Section 424(h) of the Code and any regulations or guidance promulgated thereunder; and provided further that no such adjustment shall cause any Grant hereunder which is or becomes subject to Section 409A of the Code to fail to comply with the requirements of such section.

ARTICLE III
MAKING GRANTS

Section 3.1 (a) The Board may, at any time while the Plan is in effect and there is Stock available for Grants, make Grants to Eligible Participants; provided, that, subject to the terms of the Plan, the selection of Eligible Participants for participation and decisions concerning the timing, pricing and amount of a Grant shall be made solely by a committee consisting solely of two or more directors who are (a) "non-employee directors" under Rule 16b-3 of the Exchange Act, (b) "outside directors" under Section 162(m) of the Code and "independent directors" pursuant to Nasdaq Stock Market requirements. The number of shares of Stock granted in a fiscal year to any single executive officer whose compensation is likely to be subject to reporting in the Company's annual proxy statement (an "Executive Officer") shall not exceed 100,000 shares of Stock for any fiscal year in which he serves as an Executive Officer. Determinations made in respect of the limitation set forth in the preceding sentence shall be made in a manner consistent with Section 162(m) of the Code. Grants of Options intended to be treated as incentive stock option may only be made to employees of an Employer and not to Non-Employee Directors or other service providers. Notwithstanding any provision of the Plan, to the extent that any Grant would be subject to Section 409A of the Code, no such Grant may be made if it would fail to comply with the requirements set forth in Section 409A of the Code and any regulation or guidance promulgated thereunder.

- (b) No Grant may be made after the tenth anniversary of the Effective Date.
- (c) All Grants and any exercises of Grants are conditioned upon stockholder approval of the Plan as described in Section 7.2.

Section 3.2 (a) The terms of each Grant will be set out in a written agreement between the Company and the Recipient.

(b) Subject to the applicable provisions of Article IV or V, a Grant may contain any terms and conditions which the Board determines, as long as they are consistent with the provisions of the Plan. (c) The following rules apply to the exercise of Options, unless otherwise provided in the grant agreement between the Company and the Recipient:

(i) If a Recipient dies, any Option may, to the extent it was exercisable at his death, be exercised by his estate, within one year after his date of death or such shorter period as the Option may provide. Any portion of the Option that has not vested as of the date of death shall be canceled.

(ii) If a Recipient terminates employment because he has become permanently and totally disabled, he may exercise any Option to the extent it was exercisable at his termination of employment, but only within one year after his termination of employment or such shorter period as the Option may provide. Any portion of the Option that has not vested as of the date of disability shall be canceled.

(iii) If a Recipient terminates employment for any reason other than death or permanent and total disability, he may exercise any Option to the extent it was exercisable at his termination of employment, but only within three months after his termination of employment or such shorter or longer period as the Option may provide. Any portion of the Option that has not vested as of the date of termination shall be canceled.

(iv) Subparagraph (i), (ii) or (iii) can never operate to make an Option exercisable beyond the term for which it was granted.

MISCELLANEOUS

Section 10.1 Neither the provisions of this Plan, nor the fact that a Recipient receives a Grant will constitute or be evidence of a contract of employment, position or compensation level, or give such Recipient any right to continued employment with the Employer. Neither the provisions of this Plan nor the fact that a Recipient receives a Grant will be construed as the Company's guarantee of the tax effects for the Recipient of the receipt of a Grant, transfer of the same, exercise of the same, or the retention or sale of the underlying Stock.

Section 10.2 The Company or any subsidiary is authorized to withhold from any Grant any payment relating to a Grant under the Plan, including from a distribution of Stock, or any other payment to a Recipient, amounts of withholding and other taxes due in connection with any transaction involving a Grant, and to take such other action as the Board may deem advisable to enable the Company and Recipients to satisfy obligations for the payment of withholding taxes and

other tax obligations relating to any Grant. This authority shall include authority to withhold or receive Stock or other property (including cash) with a Fair Market Value not in excess of the minimum amount required to be withheld and to make cash payments in respect thereof in satisfaction of a Recipient's tax obligations.
